2. HOW THE EQT EIGHT BAYS GLOBAL FUND WORKS

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

APPLYING FOR UNITS

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$5,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Equity Trustees Registry Team

GPO Box 804

Melbourne VIC 3001

Or email to equitytrustees_transactions@unitregistry.com.au

Please note that cash and cheques cannot be accepted. You can apply using BPAY, direct credit and direct debit payment options. Please refer to the Reference Guide for more information.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day (as defined in the Reference Guide) is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.30%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

MAKING ADDITIONAL INVESTMENTS

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$1,000.

DISTRIBUTIONS

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income semi-annually at the end of June and December, however, we may distribute more frequently or determine that the last day of a half-year is not a distribution calculation date if it is in the best interests of investors to do so. Distributions are calculated effective the last Business Day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their Australian domiciled bank account.

Alternatively, investors can reinvest the capital component of their distribution and directly credit the income component of their distribution to their nominated bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

Any income referable to your withdrawal proceeds will be paid to you following the next distribution calculation date after the relevant withdrawal.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

ACCESS TO YOUR MONEY

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Equity Trustees Registry Team

GPO Box 804

Melbourne VIC 3001

Or email to equitytrustees_transactions@unitregistry.com.au

Or by fax to +61 3 9977 5871

The minimum withdrawal amount is \$1,000. Once we receive your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Responsible Entity will generally allow an investor to access their investment within 7 days of receipt of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. However, while the Fund is liquid, the constitution allows Responsible Entity up to 30 days to process a withdrawal and enables us to suspend the processing of withdrawals for a further 30 days where we consider it to be in the best interests of investors. If we consider it not in the best interests of investors to lift the suspension, the Fund will be terminated. While the Fund is illiquid, we may, but are not obliged to, make a withdrawal offer.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.30%. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Responsible Entity reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$2,000 as a result of processing your withdrawal request. Responsible Entity can suspend consideration of withdrawal requests for 30 days where it considers it to be in the interest of investors generally to do so, as outlined in the Constitution. When the Fund is not liquid, an investor can only withdraw when Responsible Entity makes a withdrawal offer to investors in accordance with the Corporations Act. Responsible Entity is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

UNIT PRICING DISCRETIONS POLICY

ETWSL has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

ADDITIONAL INFORMATION

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

ETWSL will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. BENEFITS OF INVESTING IN THE EQT EIGHT BAYS GLOBAL FUND

The Fund is designed to provide exposure to a portfolio of global securities, primarily through active investment in Exchange Traded Funds (ETFs) that are listed on international stock exchanges such as the New York Stock Exchange and the NASDAQ.

Benefits of investing in the Fund include:

- a potential to provide medium to long-term value by identifying industries and sectors with long-term capital and income growth prospects.
- provides diversification into global industries and sectors, including new industries that are under-represented on the Australian Stock Exchange.
- potential to deliver lower volatility in returns relative to more concentrated funds that invest in individual stocks, due to the lower stock specific risk that ETFs provide.

4. RISKS OF MANAGED INVESTMENT SCHEMES

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity does not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

COMPANY/ASSET-SPECIFIC RISK

There may be instances where the value of a company, asset or ETF will fall because of company or asset specific factors (for example, where a company's major product is subject to a product recall). The value of a company's securities can also vary because of changes to management, product, distribution or the company's business environment.

DERIVATIVES RISK

Generally, in the case of derivatives, fluctuations in price will reflect movements in the underlying assets, reference rate or index to which the derivatives relate. The use of derivatives to hedge the risk of movements in an underlying asset, reference rate or index involves 'basis risk', which refers to the possibility that derivatives may not move perfectly in line with the underlying asset, reference rate or index. As a consequence, derivatives cannot be expected to perfectly hedge the risk of the underlying asset, reference rate or index.

Other risks associated with derivatives may include:

- that they can lose value because of a sudden price move or because of the passage of time;
- potential illiquidity of the derivative;
- the counterparty to any derivative contract not meeting its obligations under the contract;
- significant Volatility in prices; and
- an increase in the risk associated with an investment, where derivatives are highly leveraged

FUND RISK

As with all managed funds, there are risks particular to the Fund, including the possibility it could terminate, fees and expenses could change and the Responsible Entity and/or the Investment Manager may be replaced. There is also a risk that investing in the Fund may give different results than investing directly in the underlying shares.

This might occur because of income or capital gains accrued in the Fund and the consequence of redemptions by other investors.

CURRENCY RISK

As the fund is investing in international stock exchanges and primarily in US securities the Fund's primary currency exposure is the US dollar. Therefore, the Fund is exposed to fluctuations the Australian dollar. For example, a rising Australian dollar can have a negative impact on the value of international investments that are held in US dollars.

INFLATION RISK

Inflation risk is the risk that returns will not be sufficiently higher than inflation to enable an investor to meet their financial goals.

INTEREST RATE RISK

Changes in official interest rates can directly and indirectly impact on investment returns. Generally, an increase in interest rates has a contractionary effect on the state of the economy and the valuation of securities. For example, rising interest rates can have a negative impact on a company's value as increased borrowing costs may cause earnings to decline. As a result, the company's share price may fall.

INVESTMENT SELECTION RISK

The Investment Manager may make investment decisions that result in low or no returns. This risk is mitigated to some extent by the Investment Manager's knowledge and experience.

LEGAL RISK

There is a risk that laws, including tax laws or laws affecting registered managed investment schemes, might change or become difficult to enforce.

LIQUIDITY RISK

There may be times when investments may not be readily realised (for example, in a falling market where some traded securities may become less liquid). However, trading volumes of investments are generally sufficient to satisfy liquidity requirements when necessary. The Investment Manager attempts to mitigate the liquidity risk factor by ensuring that the Fund has sufficient cash exposure to meet liquidity requirements. Note that neither the Responsible Entity nor the Investment Manager guarantees the liquidity of the Fund's investments.

MANAGEMENT RISK

The Fund is subject to management risk because it is an actively managed investment portfolio. Investment techniques and risk analyses will be used in making investment decisions for the Fund, but there can be no guarantee that these will produce the desired results.

MARKET RISK

Changes in legal and economic policy, political events, technology failure, economic cycles, investor sentiment and social climate can all directly or indirectly create an environment that may influence (negatively or positively) the value of your investment in the Fund.

PANDEMIC AND OTHER UNFORESEEN EVENT RISK

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

5. HOW WE INVEST YOUR MONEY

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

INVESTMENT OBJECTIVE

The Fund's investment objective is to deliver gross performance (less fees) above the MSCI ACWI ex Australia (unhedged) Index over rolling 3 year periods.

BENCHMARK

MSCI ACWI ex Australia (unhedged)

MINIMUM SUGGESTED TIME FRAME

3-5 years.

RISK LEVEL

High.

There is a risk investors may lose some or all of their initial investment. Higher risk investments tend to fluctuate in the short-term but can produce higher returns than lower risk investments over the long-term.

INVESTOR SUITABILITY

The Fund is designed for investors with a high risk tolerance seeking medium to long-term capital growth potential, coupled with an increasing income stream payable from the dividends of the underlying securities and ETFs.

ASSET ALLOCATION

The Fund is designed to provide exposure to an actively managed portfolio of global securities, primarily through the utilisation of Exchange Traded Funds (ETFs) that are listed on international stock exchanges such as the New York Stock Exchange.

As the Fund is to be invested overwhelmingly through the use of ETFs, the Fund is unlikely to have any large (>7%) exposure to an individual security. The Fund may take positions with respect to industry or sector exposure which vary materially from the benchmark.

The Fund is permitted to hold up to 20% in cash, however it is intended that the Fund provide investors with exposure to global equity returns and as such cash weightings are not expected to be in excess of 10% and will generally be 5% or lower on average.

INVESTMENT STYLE AND APPROACH

The Fund is to be invested in a portfolio of ETFs in order to obtain targeted industry and sector exposure. It is anticipated that this will usually involve holding between 5 and 15 ETFs at any one point, depending on the sector themes being targeted. The ETFs themselves will hold a portfolio of underlying securities providing a diversified exposure to certain sectors or industries. It is anticipated that they will be listed on international exchanges, with the dominant location being the United States.

Equity Trustees believes that excess return over the benchmark (alpha) can be best generated in International Equities by identifying sectors and themes that possess long term sustainable growth prospects in excess of that of the broader market. The Industry sector ETF market is over US\$700bn and growing rapidly. Equity Trustees believes that utilising industry sector ETFs is an efficient and effective way of gaining exposure to these desired industries.

The investment process involves:

A) Defining the investment universe. This consists of undertaking underlying fundamental research to produce industry scores. In addition to the qualitative ranking of industries, there is also a quantitative scoring of ETFs on factors such as cost, liquidity and composition.

B) ETF selection. Selecting between 5 and 15 ETFs which fit the investment criteria and deliver the desired industry exposure as provided by the stocks held by the ETF.

C) Portfolio construction. Assessing the investment fundamentals such as earnings multiples, dividends and growth rates to determine the appropriate portfolio weights.

CHANGING THE INVESTMENT STRATEGY

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

LABOUR, ENVIRONMENTAL, SOCIAL AND ETHICAL CONSIDERATIONS

Equity Trustees recognises the importance of labour standards and environmental, social or ethical considerations in investments.

Equity Trustees believe that certain environmental, social and corporate governance ("ESG") issues may impact the sustainable value of businesses. ESG factors are taken into consideration as part of our investment process.

FUND PERFORMANCE

Up to date information on the performance of the Fund is available by calling Equity Trustees on 1300 011 130 or visiting www.eqf.com.au.

6. FEES AND COSTS

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

ADDITIONAL EXPLANATION OF FEES AND COSTS

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.90% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.27% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period.

In relation to the costs that have been estimated, they have been estimated on the basis of the expected seeding investments and the underlying model ETF portfolio.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to the Responsible Entity or the Investment Manager. The estimated Buy/Sell Spread is 0.30% upon entry and 0.30% upon exit. The dollar value of these costs based on an application or a withdrawal of \$5,000 is \$15 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.30% p.a. of the NAV of the Fund, which is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period.

In relation to the costs that have been estimated, they have been estimated on the basis of relevant information for a similar investment offering in the market.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which the Responsible Entity is entitled is 2.00% of the GAV of the Fund. However, the Responsible Entity does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. The Responsible Entity also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +613 8623 5000 for further information.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

FURTHER READING

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. HOW MANAGED INVESTMENT SCHEMES ARE TAXED

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

FURTHER READING

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. HOW TO APPLY

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Equity Trustees Registry Team
GPO Box 804
Melbourne VIC 3001
Or email to equitytrustees_transactions@unitregistry.com.au

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

WHO CAN INVEST?

Eligible persons (as described in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over. Investors investing through an IDPS should use the application form provided by the operator of the IDPS.

COOLING OFF PERIOD

If you are a Retail Client (as defined in the Corporation Act) who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying the Responsible Entity in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment. The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unitholder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

*Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. **Exempt investors should attach a copy of the certificate of exemption.** For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
